

North Bucks rRIPPLE
(ramblers Repairing & Improving Public Paths for Leisure & Exercise)
Activity Report 24 August 2019 – 23 November 2019

Copies of before & after photos of all work are available on request. Man hours include some travel time. DaG = Donate a Gate. CAMS (Countryside Access Management System) is a reference used by BCC for work requests. All work is requested and authorised by Alastair McVail, BCC North Bucks PRoW Officer, or Jon Clark, BCC Strategic Access Officer. OPAG = Oving Paths Action Group. PG = Pedestrian Gate (e.g. Centrewire Marlow); KG = Kissing Gate (e.g. Centrewire Woodstock).

“Installed to NB rRIPPLE standard” means the following: “Marlow gate installed c/w 22 mm washer, hinges greased and latch oiled, and two 1.8 m x 100 x 100 UC4 15 year Redwood posts c/w Postsaver sleeves tamped in with copious quantities of stones. Posts are attached to gates with two 10 mm diameter coach screws. Improved by the Ramblers square decals and BCC way markers fitted as appropriate.” KG slightly different as only one post needed and as from 30/1/19 we are now putting half a 20 kg bag of Fencemate (£3.91 per bag) on top of each of the two galvanised “feet” of the two hoops. Arisings, i.e. the timber from the old stile, is cut up by chain saw and removed from site unless stated otherwise.

Many thanks to the team of nine, myself, Allen, Andrew, Charles, Derek, Jerry, Joe, Keith and Peter but in particular to Jerry who does a lot of the donkey work involving recces, discussions with landowners about access and liaising with OPAG etc etc. John Chantler is our man in Berton who also comes along occasionally. We estimate that for every man hour of work carried on outdoors an hour is spent on admin, preparation, tools maintenance etc etc.
