

North Bucks rRIPPLE
(ramblers Repairing & Improving Public Paths for Leisure & Exercise)
Activity Report 24 February 2020 – 31 May 2020

Copies of before & after photos of all work are available on request. Man hours include some travel time. DaG = Donate a Gate. CAMS (Countryside Access Management System) is a reference used by BCC for work requests. All work is requested and authorised by Alastair McVail, BCC North Bucks PRoW Officer, or Jon Clark, BCC Strategic Access Officer. OPAG = Oving Paths Action Group. PG = Pedestrian Gate (e.g. Centrewire Marlow); KG = Kissing Gate (e.g. Centrewire Woodstock). DFU = Dinton with Ford & Upton.

“Installed to NB rRIPPLE standard” means the following: “Marlow gate installed c/w 22 mm washer, hinges greased, eye bolt thread copper greased and latch oiled. Two 1.8 m x 100 x 100 UC4 15 year Redwood posts c/w Postsaver sleeves are attached to the gate’s H frame with two 10 mm diameter coach screws. The posts and H frame are tamped in firmly with copious quantities of stones. Improved by the Ramblers square decals and BCC way markers fitted as appropriate.” KG slightly different as only one post needed and as from 30/1/19 we are now putting half a 20 kg bag of Fencemate (£3.91 per bag) on top of each of the two galvanised “feet” of the two hoops. Arisings, i.e. the timber from the old stile, is cut up by chain saw and removed from site unless stated otherwise.

June 2020 South East Walker article:

16 South East Walker June 2020

Awash with opportunities

2019 was a good year for North Bucks rRIPPLE (ramblers Repairing & Improving Public Paths for Leisure & Exercise). Our goal is to make the paths of North Bucks more enjoyable and safe for walkers by replacing poorly maintained stiles with steel gates.

The team expanded to nine members, which meant it was quite possible to install two gates in a day or to ensure at least four people were always available when we could only work at one location; 58 gates were installed in 2019 helping the team reach and celebrate its 200th gate in the autumn.

This year began full of confidence and enthusiasm, with a good backlog of sites desperately needing upgrades

from damaged or dangerous stiles to gleaming, self-closing steel gates. How things can change! Earlier this year our team was getting out most weeks but the deterioration in weather made the work more difficult. Finding sites that were not underwater or inaccessible due to boggy fields was a great challenge.

This has sadly meant we only managed to install nine gates in the first quarter of 2020, our poorest start ever. Then, as we entered March, our optimism grew as the weather improved and 18 March saw the installation of a kissing gate in Whitchurch in a dry and rural location. Once again excitement at getting out and eating into our backlog of stiles lifted the spirits of the team. Unfortunately,

like so many other groups and organisations, coronavirus has put paid to our carrying out any more work until restrictions are lifted. However, this enforced incarceration has not prevented Bill and Jerry, our team's negotiators, from continuing to prepare a programme of jobs to work on once we can restart.

If you are aware of a stile in North Bucks you feel might be in need of replacement do feel free to contact Bill Piers directly on williamsbpiers@gmail.com and take a look at the Donate a Gate scheme <http://www.bucks-wmiddx-ramblers.org.uk/donate-a-gate.html>, a fine way to celebrate or honour somebody dear to you.

Many thanks to the team of nine, myself, Allen, Andrew, Charles, Derek, Jerry, Joe, Keith and Peter but in particular to Jerry who does a lot of the donkey work involving recces, discussions with landowners about access and liaising with OPAG etc etc. John Chantler is our man in Berton who also comes along occasionally. We estimate that for every man hour of work carried on outdoors an hour is spent on admin, preparation, tools maintenance etc etc.
